

Resilience™

RESILIENCE™ LETS YOU PAINT WITH CONFIDENCE
NO MATTER WHAT THE FORECAST.

PREMIUM EXTERIOR ACRYLIC LATEX

THIS HIGH-HIDING EXTERIOR FINISH FEATURES EFFORTLESS APPLICATION, A PREMIUM SMOOTH FINISH AND SUPERIOR MOISTURE RESISTANCE.

Resilience™ Premium Paint is the perfect choice for residential and commercial exteriors. It has excellent hide, the easiest brushability of any of our exterior coatings and exceptional resistance to moisture.

With Resilience, the threat of rain or dew will not slow down or delay the job because it is specially formulated with breakthrough MoistureGuard™ technology, resisting moisture twice as quickly as standard exterior latex

coatings. Newly painted exteriors develop resistance to moisture in just two hours rather than the four-hour minimum most coatings require.

With superior durability, backed by a lifetime limited warranty, you can count on Resilience no matter what the forecast. It is available in flat, satin and gloss and can be applied in temperatures as low as 35°F so crews can work later in the season too.

RESILIENCE KEY BENEFITS

- | | |
|---|--|
| <ul style="list-style-type: none"> • Excellent hide and durability unmatched by the competition. | <ul style="list-style-type: none"> • Meets or exceeds stringent environmental regulations with a low 50g/L VOC. |
| <ul style="list-style-type: none"> • Easy to apply with the same workability and open time as traditional coatings. | <ul style="list-style-type: none"> • Flows and levels for a smooth finish. Ideal for highlighting exterior architectural details such as columns, doors and decorative mouldings. |
| <ul style="list-style-type: none"> • Provides resistance to moisture 50% faster, so you can paint later in the day with confidence and less concern about dew or impending rain. | <ul style="list-style-type: none"> • Contains VinylSafe® Technology – allowing you to paint darker colors on vinyl siding without worrying about warping or buckling. |

Backed by a Lifetime Warranty*

*Two coats of Resilience are required for repaint work; a primer and two coats of Resilience are required for new surfaces.
